

## TECHNICAL DATA: #AUTOMATIC PP STRAP

### Product Description:

PP (polypropylene) strap is made from virgin, eco-friendly and light-density polypropylene, which is a thermoplastic polymer. Polypropylene strapping is a durable and cost-effective packaging material made from polypropylene, commonly used for bundling and securing loads in various industries

### Physical Properties:

| Product Code    | Range                    | PP Strap      |
|-----------------|--------------------------|---------------|
| Break Load, KGF | 180-200                  | 190           |
| Elongation, %   | 10-12                    | 11            |
| Thickness, mm   | 0.88-0.92                | 0.9           |
| Width, mm       | 11.8-12                  | Dia 203 x 187 |
| Core, mm        | ID-203 mm, Width - 187mm | <120          |
| Carrier Resin   |                          | PP            |
| Surface         |                          | Embossed      |
| Colour          |                          | Virgin white  |

### Feature:

- Environmentally friendly
- Lightweight
- Water-resistant
- High tensile strength
- Durable
- Moisture resistant

### Application:

- Pharmaceutical manufacturers
- Auto spare parts manufacturers
- Ceramics industry
- Logistics companies
- Chemical industries
- Lubricant manufacturing industries
- Variety of other industries
